

## TIRES

- 1 Competitors will be required to purchase tires at racetrack the day of the event. No outside tires will be permitted to race.
- 2 You may buy as many practice tires as you need.
- 3 First race of the season, you will be required to purchase 4 tires.
- 4 Second race event and rest of season, you will only be able to buy 2 tires per race.
- 5 2 tires will be turned in after each race event to be used at the next race event.
- 6 If tires leave the racetrack, they are no longer race tires. Practice Tires ONLY.
- 7 If you have no previous RACE tires, you may purchase 2 scuffed tires from the tire dealer.
- 8 Left side tires will be mounted for right sides for the next race event and you will be required to buy 2 new tires.
- 9 Tire serial numbers will be recorded and kept on record to keep tires from getting swapped. These tire serial numbers belong to you and you ONLY may race them. No selling or swapping of tires between drivers/teams.
- 10 Anyone who is caught with wrong tires will loose all monies and points for that race event and be subject to fines. This will not be tolerated.
- 11 No tire soaking permitted. If caught, you will loose all monies and points for that race event and subject to fines. This will not be tolerated.
- 12 Spare tires for race will be marked by a SEST Official before race. No tires will be changed during the race unless deemed flat or unsafe by a SEST Official.
- 13 Mulligan tire rule: You will be allowed 2 mulligan tires per year. Tire must be flat or cut and deemed unsafe by an Official of the Series. You must report in writing, have approved and tire turned in within the 20 minute curfew as normal in order to qualify for the mulligan tire at next race event. You must mark tire with a "M" in large print before tire goes to impound.
- 14 You may turn in all 4 tires without having to buy 2 new tires for the next race if you have not run at least 25 laps in the previous race. You will be required to have at least 50 race/practice laps on your left side tires at race speed. These laps must be run with a Series Official present and also run within 1 second of race pace speed. You will be required to have transponder mounted to truck so SEST Officials can monitor and log lap times. This will ensure that everyone is running on equally worn tires.

15 Any new competitor that does not have tires already in impound, will be required to purchase 2 new tires and 2 scuff tires. These may be purchased at the track on the day of the event or notify the Series at [sestracin@charter.net](mailto:sestracin@charter.net) to make arrangements to get tires.
